PROFESSIONAL SUMMARY

Versatile Software Engineer with a Master's in AI and Data Science, specialized in building **high-performance web applications** and AI-driven solutions. Expert in **Python (FastAPI/Flask)**, **React**, and **Cloud Architecture (Azure)**. Proven track record in delivering scalable end-to-end software using **Clean Code** principles, Microservices, and automated CI/CD pipelines to drive business value in agile consulting environments.

WORK EXPERIENCE

DXC Technology

Cloud Software Operations Engineer

Rabat

FEB 2026 – PRESENT

- **Performance Optimization:** Engineered high-availability backend services ensuring 99.9% uptime for critical systems.
- **Lifecycle Management:** Owned the full SDLC for internal tools, from requirements gathering to automated deployment.
- **Scalable Architecture:** Optimized system resilience using containerized environments to handle complex business logic.

JobInTech Bootcamp / Univ. Internationale Averroès

Full-Stack Developer DevOps Specialist

Casablanca

SEPT 2025 – JAN 2026

- **Application Dev:** Built web apps using **Python** and **React** following RESTful API and Clean Code principles.
- **Microservices:** Orchestrated services on **Kubernetes (AKS)** and Docker to ensure scalable and modular delivery.
- **Quality Control:** Developed CI/CD pipelines in **Azure DevOps** with integrated **unit testing** for software quality.
- **Cloud Security:** Secured production deployments using Entra ID (RBAC) and optimized Network Security Groups (NSG).

International IT Services

Software Engineer Intern (IoT Automation)

Casablanca

FEB 2025 – AUG 2025

- **Backend Automation:** Developed robust **Python** scripts for real-time data acquisition and processing from IoT networks.
- **API Integration:** Designed modular connectivity for industrial sensors, translating data into functional software outputs.
- **Data Visualization:** Built real-time monitoring solutions with **Prometheus Grafana** for technical stakeholder metrics.
- **Agile Delivery:** Collaborated with teams to define technical specifications and translate business needs into secure code.

OCP Group

AI Software Engineer Intern (Computer Vision)

Laâyoune

JULY 2024 – SEPT 2024

- **AI Systems:** Developed an end-to-end safety system using **YOLOv8** for real-time industrial monitoring and tracking.
- **Code Optimization:** Optimized AI vision pipelines to minimize latency and ensure high-performance in production sites.
- **Data Engineering:** Managed the full lifecycle from image curation to integration testing, maintaining high code standards.
- **Collaboration:** Partnered with consulting teams to validate AI solution outcomes against industrial business goals.

ONEE Branche Eau

Business Intelligence Backend Intern

Rabat

APR 2022 – JUNE 2022

- **Data Pipelines:** Engineered automated ETL workflows in **SQL Server** to process SAP ERP data for predictive analytics.
- **Backend Logic:** Developed database logic to automate data flows, ensuring high integrity for infrastructure monitoring.
- **Data Analytics:** Built interactive dashboards in **Power BI** to provide technical insights for stakeholder decisions.
- **Statistical Modeling:** Applied predictive methodologies to structure complex data for long-term maintenance forecasting.

TECHNICAL SKILLS

- **Backend/AI:** Python (**FastAPI, Flask**), Node.js, OOP, **RESTful API**, Clean Code, **Unit Testing (PyTest/Jest)**.
- **Frontend UI:** React, TypeScript, JavaScript, HTML5/CSS3, UI Libraries (Bootstrap, Tailwind, Material UI).
- **Cloud Ops:** Microsoft **Azure (AKS, Functions)**, AWS, **Terraform**, Docker, Kubernetes, **CI/CD (Azure DevOps)**.
- **Databases:** Postgres, SQL Server, MySQL, MongoDB, **GIT (Collaborative Version-Control Workflow)**.
- **Core Concepts:** Linux/Shell Scripting, Microservices Architecture, Solution Design, Data Visualization (D3.js).

EDUCATION

École Polytechnique d'Agadir

State Engineer's Degree in Computer Science, **Data AI**

Agadir

2023 – 2025

École Supérieure de Technologies

License in Business Intelligence Statistics

Guelmim

2021 – 2022

Lissane Eddine Ibn Khatib

BTS in Information Systems Development

Laâyoune

2019 – 2021

SOFT SKILLS LANGUAGES

Soft Skills: Structured Problem Solving, Consulting Mindset, Agile Delivery, Technical Communication.

Languages: **English** (Professional - C1), **French** (Fluent), **Arabic** (Native).
